# LAYERS OF PROTECTION

# Different Layers Of School Safety

## **DISTRICT LAYER**

Policies/Practices  
Communication Coordination  
Emergency Operation Plan  
Resource Allocation

## **BUILDING LAYER**

Closed Campus  
Visitor Management  
Window Film  
Secured Vestibule  
Electronic Access

## **PROPERTY LAYER**

Access To Property  
Video Surveillance/Monitoring  
CPTED/Lighting  
Signs/Wayfinding

## **CLASSROOM - INTERIOR LAYER**

Communication Systems  
Classroom Locks  
Staff Training  
Emergency Supplies

## **PARKING LOT LAYER**

Fence between playground and parking lot  
Bollards, visitor parking Signage

# District Layer

The District Layer of school safety refers to the broadest and most comprehensive level of safety management. This layer encompasses the entire school district or educational organization. At this level, strategies and policies are developed to ensure the safety and security of all schools within the district. Key components of the District Layer include:

- **Policy Development:** Developing and enforcing consistent safety policies, including those related to access control, visitor management, and crisis response procedures, throughout the entire school district.
- **Communication and Coordination:** Establishing communication channels and coordination mechanisms with local law enforcement, emergency services, and other relevant agencies to ensure a swift and organized response to crises.
- **Emergency Operation Plans:** Developing district-wide emergency operation plans that address various types of potential threats, such as natural disasters, intruders, or health emergencies. These plans should establish the framework for coordinated response and recovery efforts.
- **Resource Allocation:** Allocating resources, personnel, and funding to support safety initiatives, including staff training, security equipment, and technology systems.

# Building Layer

The Building Layer of school safety focuses on the security measures and practices within each school building. It aims to create a safe and secure environment for students, staff, and visitors. Key features of the Building Layer include:

- **Access Control Systems:** Implementing access control systems, such as electronic key cards or biometric scanners, to restrict access to certain areas within the building and ensure that only authorized personnel can enter.
- **Intrusion Detection:** Installing intrusion detection systems, such as alarms and motion sensors, to quickly identify and respond to unauthorized access or suspicious activities within the building.
- **Emergency Response Equipment:** Providing emergency response equipment, such as fire extinguishers, first aid kits, and communication devices, to facilitate a rapid response to various types of emergencies.
- **Lockdown Procedures:** Developing and practicing lockdown procedures to secure the building and protect occupants during a security threat.

# Classroom/Interior Layer

The Classroom/Interior Layer of school safety is the most specific and focuses on individual classrooms and interior spaces within a school building. This layer aims to protect students and staff inside the building during an emergency. Key components of the Classroom/Interior Layer include:

- **Safe Zones:** Designating specific locations within classrooms or interior spaces as safe zones during emergencies, such as areas with reinforced doors and windows.
- **Emergency Kits:** Providing classrooms with emergency kits that contain essential supplies, such as first aid items, flashlights, and communication devices.
- **Communication Systems:** Ensuring that classrooms have reliable communication systems to request assistance or report emergencies to the central security team or first responders.
- **Lockdown Protocols:** Training students and staff on lockdown protocols specific to the classroom or interior space to maximize safety during an active threat situation.

Each of these layers plays a critical role in ensuring the safety and security of students, staff, and visitors within a school environment. By addressing safety measures at each layer, educational institutions can better prepare for and respond to a wide range of potential threats and emergencies.

# Here Is The Plan to Achieve Alignment

## **Assessment of Current Protocols:**

- Review and assess the existing school safety response protocols to identify areas where common terms and terminology can be incorporated.
- Identify any ambiguities or jargon that may hinder effective communication.

## **Gather a Stakeholder Team:**

- Form a team of key stakeholders, including school administrators, teachers, security personnel, local law enforcement, and emergency responders.
- Ensure representation from all relevant departments and agencies involved in school safety.

## **Common Terminology Development:**

- Work with the stakeholder team to develop a list of common terms and definitions that can be used across all school safety protocols.
- These terms should be simple, easy to understand, and consistent with established emergency management terminology.

## **Training and Education:**

- Develop training materials and conduct workshops to educate all school staff, students, and relevant external agencies about the common terms and their meanings.
- Ensure that everyone understands the importance of using common terminology during emergencies.

## **Integration into Protocols:**

- Revise and update the school safety response protocols to incorporate the common terms and definitions. Ensure that these are consistently used throughout the documents.

## **Communication Plan:**

- Develop a communication plan that outlines how the common terms will be disseminated and used during emergency situations.
- Consider using laminated reference cards with common terms for staff members to keep on hand.

# Here Is The Plan to Achieve Alignment Continued

## **Testing and Drills:**

- Conduct regular safety drills and exercises using the common terms to practice their use during real-life scenarios.
- Use these drills to identify any issues or confusion in the terminology and address them promptly.

## **Resource Sharing:**

- Share the list of common terms and their meanings with local law enforcement, fire departments, and other emergency response agencies.
- Encourage these external agencies to use the common terms when collaborating with the school during an emergency.

## **Feedback Mechanism:**

- Establish a system for collecting feedback from staff, students, and external agencies regarding the use of common terms.
- Use this feedback to make continuous improvements to the protocols and terminology.

## **Documentation and Manuals:**

- Update all relevant documentation, including emergency response manuals, safety posters, and handbooks, to include the common terms.
- Make these documents readily available and easily accessible to all stakeholders.

## **Regular Review and Updates:**

- Set up a schedule for periodic reviews of the school safety response protocols and common terminology.
- Ensure that the terms remain up to date and relevant to the school's needs and local emergency management practices.

## **Community Involvement:**

- Involve parents, guardians, and the wider community in understanding the common terms and their role in school safety.
- Conduct information sessions or workshops for the community to promote a shared understanding of the safety protocols.

## **Legal and Regulatory Compliance:**

- Ensure that the use of common terms aligns with any legal and regulatory requirements related to school safety and emergency response.

## **Publicize and Promote:**

- Promote the adoption of common terms in school safety response protocols through school newsletters, websites, and other communication channels.

# SRP - Standard Response Protocol

## Common Terminology

- Creates a common language between Educators and First Responders
- Creates a proper response for first responders
- Educators know what to expect from first responders

### THE STANDARD RESPONSE PROTOCOL

A critical ingredient in the safe school recipe is the uniform classroom response to an incident at school. Weather events, fires, accidents, intruders and other threats to student safety are scenarios that are planned and trained for by school and district administration and staff.

Historically, schools have taken a scenario-based approach to respond to hazards and threats. It's not uncommon to find a stapled sheaf of papers or tabbed binder in a teacher's desk that describes a variety of things that might happen, and the specific response to each event.

### SRP IS ACTION BASED

The Standard Response Protocol is based not on individual scenarios but on the response to any given scenario. Like the Incident Command System (ICS), SRP demands a specific vocabulary but also allows for great flexibility. The premise is simple: there are five specific actions that can be performed during an incident. When communicating these actions, each is followed by a "Directive." Execution of the action is performed by active participants, including students, staff, teachers and first responders.

- **Hold** is followed by "In your Room or Area. Clear the Halls" and is the protocol used when the hallways need to be kept clear of people.
- **Secure** is followed by "Get Inside, Lock Outside Doors" and is the protocol used to safeguard students and staff within the building.
- **Lockdown** is followed by "Locks, Lights, Out of Sight" and is the protocol used to secure individual rooms and keep students quiet and in place.
- **Evacuate** may be followed by a location, and is the protocol used to move students and staff from one location to a different location in or out of the building.
- **Shelter** is always followed by the hazard and a safety strategy and is the protocol for group and self-protection.

These specific actions can act as both a verb and a noun. If the action is Lockdown, it would be announced on public address as "Lockdown! Locks, Lights, Out of Sight." Communication to local responders would then be "We are in Lockdown."

### ACTIONS

Each response has specific student and staff actions. The Evacuate action might be followed by a location: "Evacuate to the Bus Zone." Actions can be chained. For instance, "Evacuate to Hallway. Shelter for Earthquake. Drop, Cover and Hold."

### BENEFITS

The benefits of SRP become quickly apparent. By standardizing the vocabulary, all stakeholders can understand the response and status of the event. For students, this provides continuity of expectations and actions throughout their educational career. For teachers, this becomes a simpler process to train and drill. For first responders, the common vocabulary and protocols establish a greater predictability that persists through the duration of an incident. Parents can easily understand the practices and can reinforce the protocol. Additionally, this protocol enables rapid response determination when an unforeseen event occurs.

The protocol also allows for a more predictable series of actions as an event unfolds. An intruder event may start as a Lockdown, but as the intruder is isolated, first responders may assist as parts of the school "Evacuate to a different building," and later "Evacuate to the bus zone."

### TACTICAL RESPONSES

SRP also acknowledges that some school incidents involve a tactical response from law enforcement, and suggests consultation with local law enforcement regarding expectations and actions.

### SEQUENCING THE ACTIONS

As you read through the Action Sections, you'll see that the actions can be sequenced as situations change and information is gathered. See page 29 for examples of how this can, and has, been done.

# Common Terminology Resource

## Standard Response Protocol

- HOLD
- SECURE
- LOCKDOWN
- EVACUATE
- SHELTER

### STANDARD RESPONSE PROTOCOL

#### **HOLD**

In your room or area.  
Clear the halls.

#### **SECURE**

Get inside.  
Lock outside doors.

#### **LOCKDOWN**

Locks, lights,  
out of sight.

#### **EVACUATE**

To the announced  
location

#### **SHELTER**

Using the announced  
hazard and strategy.

Copyright 2020. All rights reserved. The "I Love U Guys" Foundation

# HOLD!

## **HOLD! In your room or area. Clear the halls.**

### **STUDENTS**

Clear the hallways and remain in room or area until the "All Clear" is announced  
Do business as usual

### **ADULTS**

Close and lock the door  
Account for students and adults  
Do business as usual

# SECURE!

## SECURE!

### Get inside. Lock outside doors.

#### STUDENTS

Return to inside of building  
Do business as usual

#### ADULTS

Bring everyone indoors  
Lock outside doors  
Increase situational awareness  
Account for students and adults  
Do business as usual

# LOCKDOWN!

## **LOCKDOWN! Locks, lights, out of sight.**

### **STUDENTS**

- Move away from sight
- Maintain silence
- Do not open the door

### **ADULTS**

- Recover students from hallway if possible
- Lock the classroom door
- Turn out the lights
- Move away from sight
- Maintain silence
- Do not open the door
- Prepare to evade or defend

# EVACUATE!

## **EVACUATE! (A location may be specified)**

### **STUDENTS**

Leave stuff behind if  
required to  
If possible, bring your phone  
Follow instructions

### **ADULTS**

Lead students to Evacuation location  
Account for students and adults  
Notify if missing, extra or injured  
students or adults

DO BUSINESS AS USUAL

# SHELTER!

## **SHELTER! Hazard and safety strategy.**

### **STUDENTS**

Use appropriate safety strategy  
for the hazard

#### **Hazard**

Tornado  
Hazmat

#### **Safety Strategy**

Evacuate to shelter area  
Seal the room

### **ADULTS**

Lead safety strategy  
Account for students and adults  
Notify if missing, extra or injured students  
or adults

# IN AN EMERGENCY - TAKE ACTION

- Quick Reference
  - For both students and staff
  - Posted in all of our common areas
  - Explains what action teachers and students take

## IN AN EMERGENCY TAKE ACTION

### **HOLD! In your room or area. Clear the halls.**

#### **STUDENTS**

Clear the hallways and remain in room or area until the "All Clear" is announced  
Do business as usual

#### **ADULTS**

Close and lock the door  
Account for students and adults  
Do business as usual

### **SECURE!**

#### **Get inside. Lock outside doors.**

#### **STUDENTS**

Return to inside of building  
Do business as usual

#### **ADULTS**

Bring everyone indoors  
Lock outside doors  
Increase situational awareness  
Account for students and adults  
Do business as usual

### **LOCKDOWN! Locks, lights, out of sight.**

#### **STUDENTS**

Move away from sight  
Maintain silence  
Do not open the door

#### **ADULTS**

Recover students from hallway if possible  
Lock the classroom door  
Turn out the lights  
Move away from sight  
Maintain silence  
Do not open the door  
Prepare to evade or defend

### **EVACUATE! (A location may be specified)**

#### **STUDENTS**

Leave stuff behind if required to  
If possible, bring your phone  
Follow instructions

#### **ADULTS**

Lead students to Evacuation location  
Account for students and adults  
Notify if missing, extra or injured students or adults

### **SHELTER! Hazard and safety strategy.**

#### **STUDENTS**

Use appropriate safety strategy for the hazard

<b>Hazard</b>	<b>Safety Strategy</b>
Tornado	Evacuate to shelter area
Hazmat	Seal the room
Earthquake	Drop, cover and hold
Tsunami	Get to high ground

#### **ADULTS**

Lead safety strategy  
Account for students and adults  
Notify if missing, extra or injured students or adults

# Classroom Action Guide

- Additional Quick Reference
  - Step by Step actions to take in any emergency situation
  - Posted in every classroom on the wall and in all emergency folders
  - Please take the time to get familiar with the document
  - See your administration for additional guidance

CLASSROOM ACTION GUIDE	
<p><b>EMERGENCY NUMBERS</b> Police Department Emergency Call 9-1-1 (call 9-911 from school phone) Tell the dispatcher where you are located</p>	<p><b>ENSURE DOORS ARE ALWAYS IN THE LOCKED POSITION, open or closed.</b></p>
<p><b>RUN, HIDE, FIGHT / LOCKDOWN</b> Initiated when: Active threat inside the school building Inform others of the situation if possible – no code words Assess the situation – you have options <b>RUN</b> – Run if you think you can safely getaway - Move out and away from the building - If outside, gather students and move away from the school building <b>HIDE</b> – If you cannot safely run - Hide in a classroom, office or staff bathroom - Barricade the door - Prepare to fight - Lights off - Do not worry about window blinds - Move out of view from hallway windows - Take attendance - Do Not display Red/Green Cards - Make plan “B” – escape or fight If the fire alarm sounds, evaluate your situation and plan an escape route, if necessary. <b>FIGHT</b> – By whatever means possible to stop or get away from the threat. <b>EVERYONE NOTIFY POLICE</b> – when safe, everyone calls police.</p> 	<p><b>HOLD-IN-PLACE</b> (and Teach) Initiated when: Incident is occurring within the school, Medical, escalating student, non-life threatening issue. - Check hallway – let students/personnel in the nearest classroom - Stay put until instructed otherwise - Do not permit anyone to enter or exit the building - Take attendance and stay where you are - Continue teaching and learning – normalize - Ignore bells until told otherwise If outside, collect students and maintain outdoor activity. If the fire alarm is pulled, evaluate your situation and plan an escape route, if necessary.</p> 
<p><b>SEVERE WEATHER</b> (Tornado/high winds 70+ MPH) Initiated when: Weather requires relocating within the school to designated areas - Move to designated shelter areas - Take severe weather/tornado position - Take attendance, notify an administrator of missing/extra students - Shelter areas within the building include first floor: o Hallway (away from doors and windows) o Bathrooms and inner offices - <b>MOBILE</b> classroom – if 50+ MPH winds, move into building if outside, immediately return indoors and seek appropriate shelter. If the fire alarm is pulled, evaluate the situation and plan an escape route, if necessary.</p> 	<p><b>SECURE BUILDING</b> (and Teach) Initiated when: Hazard outside the school building. A Secure Building as a precautionary step. If outside, collect students and move inside the school building. - Normalize, continue activities inside and follow transitions - Take attendance, notify office of missing/extra students - All doors are locked; no one leaves or enters the building - Listen for further announcements, directions, and updates If the fire alarm is pulled, evaluate your situation and plan an escape route, if necessary. Stop and assess at all transitions.</p> 
<p><b>EVACUATION/FIRE ALARM</b> Initiated when: Hazard inside requires relocating outside - Upon alarm or notification, stop what you are doing, evaluate your situation, get everyone's attention and evacuate - Take Red/Green Cards with Classroom Action Guide - Lights off and close the door – if possible - Take attendance once a safe distance outside - Hold either Red or Green Card - Red Card: Injuries, Missing/Extra Student(s)/Help - Green Card: All Accounted For/OK - If you see smoke, fire, danger, or pulled the fire alarm, once safely outside, call 911, and then notify administration. Supervise students and wait for instructions</p> 	

# Rapid Emergency Response Systems

What are some systems that can be used?  
Here are some examples of systems

- Blue Point

- Raptor Alert

# Blue Point Alert System

## What is The Blue Point Alert System?

- Blue Point is a Rapid Emergency Response System (RERS) that instantly notifies emergency responders and building occupants of an emergency situation, expedites a rapid response, and empowers people to make more informed decisions faster to save lives.
- Is activated when there is a current or imminent active threat inside or attempting to gain entry.
  - Active Shooter

# Raptor Alert

- The Raptor App contains 5 emergency options. Staff will be able to initiate an incident, be alerted and take proper action.

**HOLD**

**SECURE**

**LOCKDOWN**

**EVACUATE**

**SHELTER**

# Raptor- Visitor Management

- **The Raptor Security System** is a visitor management system that is used to protect the students, faculty, and visitors at the schools. It reads the visitor's driver's license and compares that information to a sex offender database. It will alert school administrators if a match is found.
- Screens all visitors
- Tracks all visitors
- Helps us manage drills
- Used to reunite families

# Law Enforcement Drill (Active Threat)

- 105 ILCS 128/20 C
  - Mutually Agreed upon date within 90 days of school starting
  - Law Enforcement will monitor and note any deficiencies
  - Simulations cannot mimic a school shooting event
  - Must be announced in advance to all students and staff prior to commencement of drill
  - Age-Appropriate, Trauma-Informed
  - School Administrators may use discretion and exempt students from participating
  - Parents must be given sufficient notification and allow parents to exempt their child from participation
  - Alternative method must be given to those that do not participate in the drill
  - Students must be allowed to ask questions (so, have an appropriate answer)

# Run - Hide - Fight

## Run

Leaving the area quickly is the best option if it is safe to do so

## Hide

When you can't run, Hide silently in as safe a place if possible

## Fight

As a last resort, fight. If you cannot evacuate or hide safely and only when your life is in imminent danger, take action.

### **Evade the threat when possible**

- Common Terminology - Lockdown - Locks/Lights/Out of Sight
- Participate in own survival
- Empowers individuals
- Individuals are different
- Not in any specific order

# ALICE

## **Alert**

All are authorized to announce, no codes are used

## **Lockdown**

Must include barricade training

## **Inform:**

Use technology to provide play-by-play information

## **Counter:**

Interrupt the skill set needed to shoot accurately

## **Evacuate:**

Get away from danger if possible

# Mandated Drills

- Three Fire Drills per year
- One Bus Evacuation per year
- One Law Enforcement Drill within the first 90 days of school
- One Severe Weather/Shelter in Place Drill per year.
- The ROE recommends all drills be completed by Nov 1.

## Regional Office of Education School Safety Drills Report

(as required by P.A. 94-0600, P.A. 95-1015 & P.A. 98-0048)

This form must be completed and kept with your records to be reviewed at the annual safety plan review meeting and by the Regional Office staff at next year's annual inspection. **All listed drills are required.** Please send all completed forms to your **DISTRICT OFFICE.**

**Recommended best practice - complete required drills and send the report to the DuPage ROE by November 15<sup>th</sup> of each year.**

Record of Required Drills		School year:	
District #	School:	Principal:	

Three fire drills required (one drill requires participation of the fire department)

Date completed:		With the fire department? (Yes / No):	
Date completed:		With the fire department? (Yes / No):	
Date completed:		With the fire department? (Yes / No):	
Fire department checked the Knox Box for proper keys?		(Yes / No):	
Interior, exterior, and bathroom keys present, tested and functional?		(Yes / No):	
If not, the principal creates a work order for the proper keys to be placed inside the Knox Box (exterior door, interior doors, bathroom). Work order needed?		(Yes / No):	
Fire Department name who attended drill and checked the Knox Box		(typed):	

One bus evacuation drill required

Date bus safety training and evacuation drill completed:	
--	--

One severe weather drill required

Date completed:	
-----------------	--

Law enforcement drill - Active Threat - One Law Enforcement Drill, including a school shooting incident held within 90 days of the beginning of the school year. If a date cannot be agreed upon with local law enforcement the drill must still be held.

Date completed:		Police Present? (Yes / No):	
Panic buttons or all building active threat alarm systems activated?		(Yes / No / NA):	
Police Officer Name	(typed):	Position:	
Was an After Action Report completed post drill completion?		(Yes / No):	

PA 94-0600: During each academic year, schools must conduct a minimum of 7 school evacuation drills to address and prepare students and school personnel for fire incidents. One of the 7 school evacuation drills shall require the participation of the appropriate local fire department or district. During each academic year, schools must conduct a minimum of one bus evacuation drill.  
 During each academic year, schools must conduct a minimum of one severe weather and shelter-in-place drill to address and prepare students and school personnel for possible tornado incidents and may conduct additional severe weather and shelter-in-place drills to account for other incidents, including without limitation earthquakes or hazardous materials. PA 95-1015: During each academic year, schools must conduct one law enforcement drill in accordance with the school's current emergency and crisis plans. The drill must be done on days when students are present. P.A. 98-0048: Law enforcement drill shall include a school shooting incident and must be held within the first 90 days of school even if the school and law enforcement cannot agree on a date. PA 100-443.

# Opportunities for Training

- I Love You Guys Foundation Reunification
- NIMS 100,200,700
- ASIM/SSAVEIM
- College of DuPage Homeland Security Training Center
  - Scenario based, active shooter and de-escalation training.

# I Love You Guys Foundation

## **SRP/SRM Full-Day Train the Trainer Workshop**

An Advanced Introduction to the Standard Response Protocol and the Standard Reunification Method

“Crisis isn’t a choice, response is.”

# NIMS - National Incident Management System

## What is NIMS?

- The National Incident Management System (NIMS) guides all levels of government, nongovernmental organizations and the private sector to work together to prevent, protect against, mitigate, respond to and recover from incidents.
  - Incident Command Teams
  - Create your Incident Command Teams
  - Complete IC- 100, 200 & 700 series for schools including administrators

# SCHOOL SAFETY AND VIOLENT EVENT INCIDENT MANAGEMENT (SSAVEIM)

The Illinois Fire Service Institute's (IFSI) SSAVEIM Program is a grant funded program available at no cost to local EMS, Fire, police and school administrators.

This 8 hours course on Reunification

- Applies the Incident Command System to the Management of school shooting events.
- Reviews the Incident Command System for School Reunification.
- Identifies key concepts of Operations of Reunification.
- Opportunity of a demonstration via a tabletop exercise the management of an Active Shooter Incident.
- Identifies training opportunities for schools and local first responders on Active Shooter Incident Management and Reunification.

ILLINOIS  
FIRE SERVICE  
INSTITUTE

# School Preparedness Workshop HSTI

## Homeland Security Training Institute

The School Preparedness Workshop, part of the Emergency Management Academy Series, is designed to assist local (public and private) and regional school officials in understanding the requirements of the Illinois School Safety Drill Act, and the implication of those required efforts on overall community preparedness. Participants will also better understand their role in community emergency preparedness as they work to improve school safety.

**Homeland Security  
Training Institute**

# School Safety Assessments

- Professional development for schools looking at all the layers of school safety in your district.
- Enhances the school safety climate and culture to ensure a safe and secure learning and working environment for all students and staff.
- Can be provided by Dupage R.O.E.  
School Safety Specialist Kevin Triplett

A detailed illustration of a courtroom interior. The room features dark wood paneling on the walls and ceiling. In the center, there is a large, elevated judge's bench with a wooden desk. Behind the bench, two American flags are visible. The room is lit by a central chandelier and two side lamps. On either side of the bench, there are rows of blue upholstered wooden benches for the audience. The overall atmosphere is formal and professional.

**ARE YOU PREPARED TO  
DEFEND YOUR SCHOOL SAFETY  
POLICIES AND PROCEDURES?**
